We are interested in obtaining a deeper understanding of health and fitness of people of your age. May I measure your blood pressure and take some measurements of your body and weight? I also ask that you do some exercises to assess your physical health. Some of these measurements will be performed 2 times to verify that they were done correctly. If you have any questions now or later, please feel free to ask.

BLOOD PRESSURE

First I would like to measure your blood pressure and pulse. Remain seated while I prepare the arm cuff. The arm cuff will squeeze your arm a little, but it will not hurt you. Please relax. Make two measurements—one now and the other a little later.
