

HRS 2022 -- SECTION A: COVERSCREEN
FINAL VERSION -- 10/20/2022

NOTE ABOUT BRANCHPOINTS:

WHERE THERE IS MORE THAN ONE JUMP WITHIN A BRANCHPOINT BOX, THE JUMPS ARE TO BE APPLIED IN ORDER FROM THE TOP.

NOTE ABOUT COLORS:

ALL TEXT IN TEAL IS SPECIFIC TO A WEB INTERVIEW.

ALL TEXT IN FUCHSIA IS SPECIFIC TO THE EXIT INTERVIEW.

THE CORE INTERVIEW IS DOCUMENTED USING BLACK TEXT, BUT BLACK TEXT CAN ALSO APPLY TO THE EXIT OR WEB INTERVIEW WHEN THERE ARE NO DIFFERENCES FROM THE CORE.

NOTE ABOUT BOLD/UNDERLINE TEXT:

ANY QUESTION THAT IS UNDERLINED IN THE B&A WILL APPEAR IN BOLD IN CAPI AND WILL BE UNDERLINED FOR CAWI.

NOTE ABOUT EXIT INTERVIEW R_s:

ANY NEW SPOUSE/PARTNER THAT AN EXIT INTERVIEW R ACQUIRED SINCE HIS/HER LAST INTERVIEW IS IGNORED FOR THE PURPOSES OF THIS INTERVIEW. SIMILARLY, A SPOUSE/PARTNER WHO WAS REPORTED IN A PREVIOUS WAVE BUT WHO HAS NEVER BEEN INTERVIEWED WILL NOT HAVE AN EXIT INTERVIEW.

SINCE EXIT INTERVIEW R_s ARE REINTERVIEW R_s, QUESTIONS NOT ASKED OF REINTERVIEW R_s ALSO ARE NOT ASKED OF EXIT R_s, UNLESS OTHERWISE NOTED.

NOTE ABOUT NEW COHORTS:

EVERY THREE WAVES (SIX YEARS) A NEW COHORT OF HOUSEHOLDS IS ADDED TO THE SAMPLE. THIS WAS DONE IN -2004, 2010, 2016 AND WILL BE DONE AGAIN IN 2022. MENTION OF 'SCREENER' IN THIS DOCUMENT REFERS TO INFORMATION GATHERED DURING INITIAL CONTACT WITH THE R AND/OR HOUSEHOLD.

NOTE ABOUT NON-RESPONSE FLOW:

ANY QUESTION THAT IS ASKED BUT LEFT WITHOUT A RESPONSE IN CAWI INTERVIEWS WILL FOLLOW THE SAME PATH AS A REFUSAL FOR THAT QUESTION, UNLESS OTHERWISE SPECIFIED.

NOTE: IWER WILL READ CONFIDENTIALITY STATEMENT UPON RESUMING FROM ANY SUSPENDED SESSION. [SEE SECTION 8 IN THE APPENDIX FOR CONFIDENTIALITY STATEMENT](#)

Introduction and Navigation for CAWI interview

A000_1 BRANCHPOINT: IF THIS IS A CAWI IW, ASK

ELSE, GO TO A006

A000_1

We would like to thank you for your ongoing participation in the Health and Retirement Study. Your contributions have been very important in helping to understand the health and economic circumstances of people around the country.

This survey can be completed over several sessions if you prefer. To save you time, we have filled in some information that you have provided during previous interviews.

The survey is hosted on a secure website. The information you provide is protected and will be kept confidential.

For some questions you will notice a MORE INFO button. This contains additional guidance to help you answer the question. If you would like to add a comment or explanation for any question, use the COMMENT button.

We recommend that you use the 'Next' and 'Previous' buttons to navigate through the questions since 'Enter' and 'Tab' functions can work very differently in certain browsers.

A000_2

If you need help or have questions, our contact information is located at the bottom of every screen. The phone line will be staffed between 9am and 7pm eastern time on Monday through Friday and between 10am and 2pm on Saturday.

If you need to leave the survey, your responses will be saved and you can return where you left off.

A006

[INSTR: THIS SURVEY IS INTENDED FOR [R FIRST NAME (X058AFNAME)] [LAST NAME (X017ARLNAME)].]

[INSTR: ARE YOU INTERVIEWING [R FNAME], OR DOING A PROXY FOR [R FName]?]

[INSTR: IF YOU HAVE THE WRONG R, SUSPEND THIS CASE AND SELECT THE CORRECT LINE.]

This survey is intended for [R FNAME] [LAST NAME].

Are you [R FNAME]?

1. CORRECT R.....GO TO A007 BRANCHPOINT

1. YES.....GO TO A007 BRANCHPOINT

5. NO..... GO TO A006 Abort Screen

[EMPTY]..... GO TO A006 Abort Screen

NOTE: THE R OR IWER MUST ANSWER THIS QUESTION. 'DON'T KNOW' OR 'REFUSE' ARE NOT ACCEPTABLE RESPONSES.

NOTE: IF THE PERSON BEING INTERVIEWED IS NOT THE CORRECT RESPONDENT, THE CAWI INTERVIEW IS TERMINATED AND THE CASE IS SENT TO INTERVIEWER. [SEE APPENDIX \(SECTION 1. Abort Screens\) FOR ABORT SCREEN TEXT.](#)

A007 BRANCHPOINT: IF THIS IS A CAWI IW, ASSIGN 1 *and* GO TO A002 BRANCHPOINT

ELSE IF YEAR OF DEATH EMPTY (Z131= EMPTY) *and* TYPE OF POST-EXIT EMPTY (Z145= EMPTY) OR YEAR OF DEATH EMPTY (Z131= EMPTY) and TYPE OF POST-EXIT (Z145=1), CONTINUE

ELSE IF YEAR OF DEATH EMPTY (Z131=EMPTY) AND TYPE OF POST-EXIT (Z145 >1) THEN ASSIGN A007=5.

ELSE IF YEAR OF DEATH IS NOT EMPTY THEN ASSIGN A007=5

ELSE, GO TO A002

A007

[INSTR: IS [R FNAME] LIVING?]

1. YES
5. NO

NOTE: THE R OR IWER MUST ANSWER THIS QUESTION. 'DON'T KNOW' OR 'REFUSE' ARE NOT ACCEPTABLE RESPONSES.

NOTE: {CORE and EXIT} FOR A REINTERVIEW HOUSEHOLD (HH) THE INTERVIEW WILL THEN PROCEED EITHER AS A CORE INTERVIEW OR AS AN EXIT INTERVIEW. WHEN THE RESPONDENT (R) IS REPORTED HERE AS NOT LIVING AND WAS PRELOADED AS COUPLED, THEN THE HOUSEHOLD BECOMES CLASSIFIED AS SPLIT AND INTERVIEWS FOR THE TWO RESPONDENTS PROCEED INDEPENDENTLY.

FOR A NEW INTERVIEW HH THE INTERVIEW WILL PROCEED AS A CORE INTERVIEW, BUT ONLY IF THE RESPONDENT IS REPORTED HERE AS LIVING. IF THE RESPONDENT IN A NEW HH IS NOT LIVING, THE INTERVIEWER WILL SUSPEND THE CASE AND IT WILL BE TERMINATED FOR THIS RESPONDENT.

A002 BRANCHPOINT: IF THIS IS A CAWI IW, ASSIGN 1 and GO TO A008 BRANCHPOINT

A002

[INSTR: IS THE RESPONDENT OR THE PROXY FOR THE RESPONDENT WILLING AND ABLE TO DO THE INTERVIEW?]

[INSTR: CHOOSING 'YES' WILL CONTINUE THIS INTERVIEW.]

[INSTR: IS THE PROXY FOR THE RESPONDENT WILLING AND ABLE TO DO THE INTERVIEW?]

[INSTR: CHOOSING 'YES' WILL CONTINUE THIS INTERVIEW.]

1. YES

NOTE: THE R OR IWER MUST ANSWER THIS QUESTION. 'DON'T KNOW' OR 'REFUSE' ARE NOT ACCEPTABLE RESPONSES.

A008/A188 BRANCHPOINT: IF THIS IS A CAWI INTERVIEW AND WE KNOW R'S GENDER (X060 NOT EMPTY),, ASSIGN PRELOADED VALUE(x060) and GO TO A155 BRANCHPOINT

ELSE IF CAPI AND WE KNOW R's GENDER FROM PRELOAD (X060 NOT EMPTY), ASSIGN THAT GENDER TO A008/A188 AND GO TO A009

A008/A1
88

[INSTR: PLEASE SELECT SEX.]

[INSTR: PLEASE DOUBLE CHECK YOUR ANSWER TO THIS QUESTION BECAUSE ONCE YOU ANSWER IT, YOU CANNOT BACK UP TO CHANGE IT.]

[INSTR: WAS [RESPONDENT NAME] MALE OR FEMALE?]

[INSTR: PLEASE DOUBLE CHECK YOUR ANSWER TO THIS QUESTION BECAUSE ONCE YOU ANSWER IT, YOU CANNOT BACK UP TO CHANGE IT.]

1. MALE
2. FEMALE

NOTE: THE R OR IWER MUST ANSWER THIS QUESTION. 'DON'T KNOW' OR 'REFUSE' ARE NOT ACCEPTABLE RESPONSES.

1. MALE
2. FEMALE

[EMPTY]..... GO TO A008 Abort Screen

NOTE: IF THIS IS A CAWI INTERVIEW, AND GENDER IS MISSING, THE CAWI INTERVIEW IS TERMINATED AND THE CASE IS SENT TO INTERVIEWER. [SEE APPENDIX \(SECTION 1\) FOR ABORT SCREEN TEXT.](#)

NOTE: AFTER THIS QUESTION (A012) THE LANGUAGE (ENGLISH/SPANISH) AND INTERVIEW TYPE (CORE, EXIT, PROXY) IS SET FOR THE REST OF THE INTERVIEW. [SEE SECTION 2. LANGUAGE AND IW TYPE ASSIGNMENT IN APPENDIX.](#)

A165_A013

IF THIS IS A CORE INTERVIEW and A REINTERVIEW R (Z076=1):

(As you know,) this study is interested in learning about important aspects of people's lives such as their health, financial and family situations. To do so, we are re-interviewing people such as yourself who have previously participated in the study.

IF THIS IS A CORE INTERVIEW and A NEW INTERVIEW R (Z076 NOT 1):

This study is interested in learning about important aspects of people's lives such as their health, financial and family situations.

READ TO ALL R'S:

This interview is completely voluntary. If we should come to any question that you don't want to answer, just let me know and I will go on to the next question. Your identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the researchers from being forced to release any research information that identifies you.

[INSTR: SELECT '1' TO CONTINUE.]

As you know, this study is interested in learning about important aspects of people's lives such as their health, financial and family situations. To do so, we are re-interviewing people such as yourself who have previously participated in the study. The survey should take about 90 minutes to complete.

This interview is completely voluntary. If we should come to any question that you don't want to answer, you may just select "next" to go on to the next question. Your identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the researchers from being forced to release any research information that identifies you.

[INSTR: PLEASE SELECT "NEXT" TO CONTINUE.]

IF THIS IS AN EXIT INTERVIEW and NOT A POST-EXIT INTERVIEW (Z145 {NOT 2 and NOT 3 and NOT 4}):

(As I mentioned,) the study appreciates the contribution that [R's FIRST NAME] made. It is important to understand what happened in the time period between the last interview and when [he/she] (died/passed away).

A major focus is on [R's FIRST NAME]'s health and health-related costs, and on the disposition of [his/her] assets. We will also update general information about [R's FIRST NAME].

IF THIS IS A POST-EXIT INTERVIEW (Z145={2 or 3 or 4}):

(As you may know, R's FIRST NAME was a part of the Health and Retirement Study, an important study about issues of aging.) About two years ago, after R's FIRST NAME (died/passed away), we spoke with [NAME OF EXIT INTERVIEW PROXY] about R's FIRST NAME's death and the health conditions surrounding [his/her] death. At that time, final settlement of the estate had not taken place, and we would like to ask a few questions now about the final estate settlement.

READ TO ALL R'S:

This interview is completely voluntary. If we should come to any question that you don't want to answer, just let me know and I will go on to the next question. Your identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure [R's First NAME]'s privacy. This certificate can help protect the researchers from being forced to release any research information that identifies [R First Name].

[INSTR: SELECT '1' TO CONTINUE.]

SCV.XSplit BRANCHPOINT: IF THIS IS A NEW INTERVIEW HH (X024 NOT 1), COMPLETE THE XSPLIT CALCULATION THEN GO TO X004_3 BRANCHPOINT

Xsplit

THIS IS AN ASSIGNED VARIABLE.

SCV.Xsplit: MARITAL/MORTALITY DETERMINATION OF SPLIT HOUSEHOLD

A household can be split if it is decided that two respondents, previously interviewed as in one household, no longer remain together as a couple. Then data are not shared between respondents. Interviews are conducted on each respondent independently and each of these can then acquire a new spouse/partner as a second respondent in that new household. In the case where a respondent reported that the spouse/partner has died (A023=5), independent interviews are conducted for each: as an exit interview for the deceased R and as a core interview of the surviving spouse/partner (the household was split after A025). Where the first R was reported deceased (A007=5), the household was split after A007.

THE FOLLOWING CONDITIONS DETERMINE WHETHER THE REINTERVIEW HOUSEHOLD IS CONSIDERED TO BE SPLIT.

HOUSEHOLD IS SPLIT (SCV.XSplit=1):

IF R WAS COUPLED AT THE LAST WAVE (SCV.XNumR=2) and
{R DOES NOT HAVE THE SAME SPOUSE/PARTNER AS AT THE LAST WAVE (A020=5) or R IS SEPARATED (A034=2)} and R's SPOUSE/PARTNER IS STILL LIVING (A023=1)};

or

IF R WAS COUPLED AT THE LAST WAVE (SCV.XNumR=2) and
ONE OR BOTH MEMBERS OF THE COUPLE HAS DIED (A007=5 or A023=5).

HOUSEHOLD IS NOT SPLIT (SCV.XSplit=5):

OTHERWISE, IF R WAS ASKED A034 or A020 (A020={1 or 3})

End marital status information, uncoupled PW or not same Sp/Pt as previous wave

3. NO, UNDER 65

Respondents grid questions (X058-A047)

A042/A0
43/A044

R's SPOUSE's/PARTNER's AGE ASSIGNMENT

A043/A044 ARE VARIABLES WHERE THE R's SPOUSE's/PARTNER's EXACT OR IMPUTED AGE IS STORED BASED ON INFORMATION PROVIDED IN A PRIOR WAVE OR ON INFORMATION PROVIDED IN THIS IW AT QUESTIONS X004_3, X005_3 AND X067_3 (CORRESPONDING TO TAG#s A039, A040 AND A041, RESPECTIVELY). IF NEITHER OF THESE SOURCES PROVIDES AT LEAST A BIRTH YEAR, THEN THE AGE IS IMPUTED FROM A042.

R ROSTER {CORE CAPI, CAWI AND EXIT}: Displays X054APNdx, X058AFName, X017ARLName, X060ASex, X067AYrBorn

Screen Layout for R-Grid

NOTE: THE FIRST SCREEN DISPLAYS PRE-FILLED INFORMATION ABOUT THE R, THE SECOND SCREEN IS PREFILLED INFORMATION ABOUT THE PW, STILL CURRENT SPOUSE/PARTNER, THE THIRD SCREEN DISPLAYS SOME INFORMATION ABOUT A NEW SPOUSE/PARTNER. FORMER SPOUSES/PARTNERS (EX- OR DECEASED) ARE NOT SHOWN.

NOTE: THE INTERVIEWER ASKS QUESTIONS, IN BOTH CORE AND EXIT IWS, OF THE RESPONDENT/PROXY AS NEEDED IN ORDER TO VERIFY INFORMATION ABOUT THE RESPONDENT AND SPOUSE/PARTNER (IF ANY) IN THE R ROSTER, OR TO GATHER INFORMATION ABOUT THE FIRST R's (NEW) SPOUSE/PARTNER.

SECTION A: APPENDIX

This appendix is a reference document that explains some of the key components of Section A.

In this appendix we cover the following topics that pertain to section A:

1. Abort Screens
2. LANGUAGE AND IW TYPE ASSIGNMENT
3. Birthdate and Age of Respondent Calculation and Assignments
4. A028 NURSING HOME ASSIGNMENT
5. SCV.XINITION
6. Financial – Family Respondent Assignments
7. Current Main Residence (Re)Assignment: A084/A086/X025 & X026

8. Confidentiality Statement For Suspended Cases
9. Coupleness Assignments:
10. SCV.Xsplit: Marital/Mortality Determination Of Split Household
11. Imputed Variables

Section 1: Abort Screens -This section describes the abort screen text when a web interview is terminated and transfered to an interviewer. Web respondents are allowed to leave questions empty. Some questions are major flow control questions and without accurate answers to these questions the interview will be not be able to proceed correctly. When we have an issue with a major flow control question, we terminate the web interview and we transfer the case to an interviewer.

A006_Abort screen:

IF R CONFIRMATION IS NO (A006=5):

Thank you. An interviewer will contact [Rname] to schedule an interview.

IF R CONFIRMATION IS SKIPPED (A006=EMPTY):

We are not able to complete your interview at this time. An interviewer from the University of Michigan will contact you to set up an appointment.

A008_Abort screen:

We are not able to complete your interview at this time. An interviewer from the University of Michigan will contact you to set up an appointment.

A166_A020 Abort screen:

We are not able to complete your interview at this time. An interviewer will be in contact with you to schedule an appointment to complete your interview.

A255_A020 Abort screen:

We are not able to complete your interview at this time. An interviewer will be in contact with you to schedule an appointment to complete your interview.

A026 Abort Screen:

We are not able to complete your interview at this time. An interviewer will be in contact with you to schedule an appointment to complete your interview.

A027 Abort Screen:

We are not able to complete your interview at this time. An interviewer will be in contact with you to schedule an appointment to complete your interview.

Section 2: LANGUAGE AND IW TYPE ASSIGNMENT - This section describes how the interview language (ENGLISH/SPANISH) and how the interview type (Core, Proxy, Exit) are assigned.

LANGUAGE AND IW TYPE ASSIGNMENT:

AFTER THIS QUESTION (A012) THE LANGUAGE IS SET FOR THE REST OF THE INTERVIEW. IT IS BASED ON RESPONSES TO A012_LangSwitch, A009_SelfProxy, AND A007TRAlive_A.

CONDITIONS FOR LANGUAGE ASSIGNMENT.

IF A012=ENGLISH AND A009=SELF THEN CORENG (CORE ENGLISH)

IF A012=SPANISH AND A009=SELF THEN CORSPN (CORE SPANISH)

IF A012=ENGLISH AND A009=PROXY AND A007=YES THEN PRXENG (PROXY ENGLISH/LIVING PROXY)

IF A012=ENGLISH AND A009=PROXY AND A007=YES THEN PRXENG (PROXY ENGLISH/LIVING PROXY)

IF A012=ENGLISH AND A009=PROXY AND A007=YES THEN PRXSPN (PROXY SPANISH)/LIVING PROXY)

IF A012=ENGLISH and A007=NO THEN EXTENG (EXIT ENGLISH)

IF A012=SPANISH and A007=NO THEN EXTSPN (EXIT SPANISH)

EXTENG (EXIT ENGLISH) = {A012=ENGLISH and A007=NO}

EXTSPN (EXIT SPANISH) = {A012=SPANISH and A007=NO}

Section 3: Birthdate and Age of Respondent Calculation and Assignments - This section describes the respondent's age calculation.

A018/A019 are variables where the respondent's exact or imputed age is stored based on information provided in a prior wave and found in preload variables X004 (day), X005 (month) and (X067 year) and updated information provided in this interview. A birthdate is stored in A014 for those respondents who met the criteria of the X004 branchpoint and for those who answered the question series X004_1, X005_1 and X067_1. For those who failed to provide at least a year in this series, their prior wave birthdate, if available, is stored in A014.

The respondent's age is stored at variables A018/A019 after imputations based on the following criteria shown in order of priority: (1) from A014, (2) from partial information provided in the series if they provided a year of birth at X067_1, or (3) from information provided at A017. Age {A018_ageimpute & A019_age} and year of birth (X067_1) are imputed and assigned on the following bases:

(a) IF A017={2 or 4}: AGE=65 & BIRTHYEAR={CURRENT YEAR - 66}

(b) IF A017={3 or 5}: AGE=64 & BIRTHYEAR={CURRENT YEAR - 63}

For new cohorts we have only the year of birth from the screener. These imputations are ignored for new interview respondents since it does not allow us to determine whether the age is within the range for the new cohort.

In the case of exit interviews, respondents who are deceased at the current wave, A019_age is calculated as the respondent's age at death, using the number of years from R's date of birth to respondent's date of death, with date of death stored in A121 (month), A122(day) and A123(year of death_).

The procedure for collecting and update the respondent's spouse's age is similarly to the one described above for a respondent. A043/A044 are variables where the spouse's/partner's exact or imputed age is stored respectively, based on information provided in a prior wave or on information provided in this interview at questions X004_2, X005_2 and X067_2. If neither of these sources provides at least a birth year, then the age is imputed from A042.

The questions collecting the respondent's age are asked after A134 (x004_1, x005_1, x067_1), while those collecting the spouse's age are asked after A034 ((x004_2, x005_2, x067_2)

Section 4: Nursing Home Status: This Section describes the A028 Nursing Home Assignment.

A028 is an assigned variable. This variable is a dichotomous indicator of whether R currently resides in a nursing home or other health care facility (or was residing in such a facility at the time of R's death.) It is based on response to question A167/A167_A028.

Conditions for assigning nursing home status:

IF A167=1 or A167=2:	A028 = 1. YES
IF A167=5:	A028 = 5. NO
IF A167=8:	A028 = 8. DK
IF A167=9:	A028 = 9. RF
IF A167=EMPTY:	A028 = EMPTY: A167 NOT ASKED

Section 5: SCV.XINITION - This section describes the SCV variable xinition. This variable controls when key respondent data are transferred to it permanent location and when the case resets.

- ST (most CAPI cases) and MSMS (All CAWI cases and some CAPI cases) do not work the same way.
 - o The code used in CM matches MSMS. This means that when we are testing in CM, suspending and resuming before A112 does NOT result in starting the case over.
 - o In ST, if you suspend at any point before Phase 2, the case is reset.
 - o In MSMS, if you suspend at any point before Phase 2, the data is saved. Exception: In a coupled HH, if R starts interview and does not reach phase 2 and their spouse/partner starts their interview and reaches phase 2, then the spouse is the first R and the other R's case is reset.

- **Phase 1:**

- o When A047 is answered, Set SCV.XInitiation = PHASE1
- o This is not a gate but important information about the Respondent (name, gender, living status, coupleness...) is copied to the final updated preload block to be used later as major flow controls.
- o Once A047 is answered, the lwer can go back and change answers but this is discouraged. Importantly, if the lwer changes answers to any of the coupleness questions the new answers will NOT be saved. If coupleness status displayed at A047 is incorrect, the lwer must suspend and start over BEFORE answering A047. The recommendation is always to suspend and start the case over.

- **Phase 2:**

- o When A112 is answered, Set SCV.XInitiation = PHASE2
- o This is a true gate. Once Phase 2 is set, you are not able to go back into the coverscreen (Sections A/A2).
- o Important information such as Children and HHM info is copied to the final updated preload block to be used later as major flow controls.

AFTER A047 SCV.XINITIATION IS SET TO PHASE 1. WHEN PHASE 1 IS SET, IMPORTANT INFORMATION ABOUT THE RESPONDENT INCLUDING NAME, LIVING STATUS, GENDER, AND COUPLENESS IS COPIED TO THE FINAL UPDATED PRELOAD BLOCK TO BE USED LATER AS MAJOR FLOW CONTROLS.

After A112 SCV.XINITIATION IS SET TO PHASE 2. WHEN PHASE 2 IS SET IMPORTANT INFORMATION ABOUT CHILDREN AND HOUSEHOLD MEMBERS IS COPIED TO THE FINAL UPDATED PRELOAD BLOCK TO BE USED LATER AS MAJOR FLOW CONTROLS.

AFTER PHASE 2 IS SET, THE A112 GATE IS CLOSED AND RESPONDENTS WILL NOT BE ABLE TO CHANGE ANY INFORMATION THAT IS IN THE COVERSCREEN (SECA/A2).

IN ST, IF THE CASE IS SUSPENDED AT ANY POINT BEFORE PHASE 2 IS SET, THEN THE CASE STARTS OVER. IF THE CASE IS SUSPENDED AFTER PHASE 2 IS SET, THEN THE CASE RESUMES AT THE QUESTION THE RESPONDENT LEFT OFF.

IN MSMS, IF THE RESPONDENT SUSPENDS AT ANY POINT BEFORE PHASE 2, THE DATA IS SAVED AND UPON RESUMING, THEY BEGIN AT THE PLACE THEY LEFT OFF. EXCEPTION: IN A COUPLED HH, IF R STARTS THE INTERVIEW AND DOES NOT REACH PHASE 2 AND THEIR SPOUSE/PARTNER STARTS THEIR INTERVIEW AND REACHES PHASE 2, THEN THE SPOUSE IS THE FIRST R AND THE OTHER R'S CASE IS RESET AND WILL START THEIR INTERVIEW FROM THE BEGINNING.

Section 6: Financial – Family Respondent Assignments - This section describes the Financial/Family R assignment. This assignment controls which respondent gets the financial sections and which respondent gets the family sections.

Some sets of questions in this interview are designed to be answered by one or the other of the respondents in a household, but not by both, based on who is most knowledgeable about financial or family matters. Thus, at some points the flow of the questionnaire is determined by whether a particular respondent is designated as one of the following 'FIN/FAM' types at variable X007 (Rtab1X007 for first respondents and Rtab2X007 for second respondents):

X007=1: Financial R
X007=2: Family R
X007=3: Financial & Family R
X007=4: Non-Financial & Non-Family R

X007 codes 1 and 2 are pairs, where if one respondent is designated the Financial R, the other in the couple must be the Family R. Similarly, codes 3 and 4 are pairs; one respondent can serve as both the financial and family respondent, while the other respondent would serve as neither.

Reinterview respondents retain their assignments from the last interview. However, if a reinterview respondent has a new spouse/partner [and such a reinterview respondent would then (nearly) always be designated as a first respondent], that reinterview respondent is now assigned to be the Financial & Family respondent (X007=3) regardless of the previous status. The new spouse/partner is assigned to be the non-financial & non-family respondent (X007=4).

All respondents who are categorized in this interview as being not coupled ({Preload_X065=6) or who are exit respondents (categorized as being in a split HH) are designated as financial & family R (X007=3). In these cases there is not a X007=4 counterpart.

Respondents in new interview HHs are assigned a FIN/FAM status based on the response for first respondents at A050. The criteria for these assignments for first Rs (A051) and Second R's (A052) in new households are these:

(1) If code 1 or 3 or 5 was selected at A050, then:

First R = Financial R

Second R = Family R

(2) If code 6 was selected at A050, then:

First R = Financial & Family R

Second R = Non-Financial & Non-Family R

(3) If code 7 was selected at A050, then:

First R = Non-Financial & Non-Family R

Second R = Financial & Family R

(4) If code 2 or 4 was selected at A050, then:

First R = Family R

Second R = Financial R

Except for non-coupled and exit respondents, the interviewer has the opportunity to change the FIN/FAM assignments in the question series A053 - A055. At the beginning of that series the FIN/FAM status for respondents in reinterview households is stored at A051 for first respondents and A052 for second respondents, just as for new interview respondents. If the interviewer changes the FIN/FAM categorization for a first respondent at A055, then the second respondent is assigned the matching category in the pair to A056 (unseen). Those categories are then assigned back to rtab1X007 and rtab2X007, respectively.

IN 2022, TO PREVENT NOT GETTING A FIN R REPORT WHEN ONE R IN A COUPLE DOESN'T RESPOND, WE ADDED THE FOLLOWING CONDITIONS TO THE FIN/FAM ASSIGNMENT.

IF THE FIN R COMPLETED AN INTERVIEW THROUGH SEC Q IN THE PREVIOUS WAVE, WE FOLLOWED THE SAME PROCEDURE AS PREVIOUS WAVES.

IF THE FIN R DID NOT COMPLETE AN INTERVIEW THROUGH SEC Q IN THE PREVIOUS WAVE THEN:

If R1 is the preloaded fin R, keep that assignment.

At R2, if R1 interview is complete through Q then R2 is not fin R.

Otherwise, make R2 a fin R

If R1 is not preloaded fin R, make R1 a fin R.

At R2 keep R2 a fin R.

NOTE: This will prevent repeating waves of no fin R when the fin R is becoming nonresponsive.

It will potentially result in two fin R interviews if we manage to get the fin R as R2. We would choose the R2 fin R report and drop the R1.

Section 7: Current Main Residence (Re)Assignment: This section describes the main residence assignment and number of residences assignment.

Current main residence city and state are assigned to A086 (city, state), and (re)assigned to X025 (city) and X026 (state):

If the respondent was asked A085, values are based on these responses.

Otherwise, the values are based on responses to a combination of previous questions in the housing location sequence (A067-A081)

The flow in certain parts of the questionnaire, particularly in sections B (demographics: esp. B039 branchpoint) and H (housing) is based upon whether or not the household changed the main residence or moved, since the HH's last interview. X033 is a Blaise variable that summarizes responses to a variety of preceding questions to determine whether the HH's main residence changed and whether that involved remaining within the same area or moving out of the area.

X033_HHmoved (HH moved since previous wave)

1. R moved out of area;
3. R changed residence*; (current main residence changed but it still is in the same area as the prior main residence)
5. R didn't move

If the HH is classified as "didn't move" or "didn't change main residence since the last HH interview" (X033=5), this means that the physical house that was reported as the main residence in the last wave is still the main residence now. Thus, even when the respondent still has the same residences as in the previous interview but now designates the previously reported second residence as his/her main residence, the HH is considered to have moved or changed the main residence (X033={1 or 3}).

New cohort HHs will be assigned a value for X033 that compares the location of their current main residence with the one they had at the time of the screener.

A084 ASSIGNMENT: NUMBER OF RESIDENCES:

A084 ASSIGNMENT: NUMBER OF RESIDENCES:

IF R REPORTED THAT CURRENT RESIDENCES ARE SAME AS 1ST and 2ND RESIDENCES IN HH's LAST IW (A071 and A073=1),

ASSIGN A084 = 2. TWO RESIDENCE

IF R SAID NOW HAS SECOND RESIDENCE (A079=1):

ASSIGN A084 = 2. TWO RESIDENCE

OTHERWISE:

ASSIGN A084 = 1. ONE RESIDENCE

Section 8: Confidentiality Statement - This section describes the confidentiality statement that this presented to Respondents after returning from a suspended interview.

READ UPON RESUMING FROM ANY SUSPENDED IW SESSION:

This study is interested in learning about important aspects of peoples' lives such as their health, financial and family situations.

This interview is completely voluntary. If we should come to any question that you don't want to answer, just let me know and I will go on to the next question. Your identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the researchers from being forced to release any research information that identifies you.

This interview may be recorded so that my supervisor can evaluate my performance.

READ UPON RESUMING FROM ANY SUSPENDED IW SESSION:

As we've mentioned before, this study is interested in learning about important aspects of peoples' lives such as their health, financial and family situations. This interview is completely voluntary. If you come to any question that you don't want to answer, just leave it empty and go on to the next question.

Your identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure your privacy. This certificate can help protect the researchers from being forced to release any research information that identifies you.

READ UPON RESUMING FROM ANY SUSPENDED IW SESSION:

This interview is completely voluntary. If we should come to any question that you don't want to answer, just let me know and I will go on to the next question. [RNAME]'s identity as a participant and any personally identifying information you provide will be kept confidential.

A Department of Health and Human Services Certificate of Confidentiality covers this research in order to help ensure [RNAME]'s privacy. This certificate can help protect the researchers from being forced to release any research information that identifies [RNAME].

This interview may be recorded so that my supervisor can evaluate my performance.

Section 9: Coupleness Assignments - This section describes the respondent's coupleness status assignment.

A038 & X065: Coupleness Assignment

A respondent is assigned a coupleness code at A038 & X065 based on responses to questions A020 – A035:

1. MARRIED
2. REMARRIED
3. PARTNERED_VOL
4. REPARTNERED_VOL
6. OTHER

MARRIED: IF R IS NEWLY MARRIED (A026=1) *or* HAS THE SAME SPOUSE/PARTNER AS AT THE LAST IW (A020={1 *or* 3 *or* 4})

REMARRIED: IF R IS NEWLY MARRIED (A026=1) *and* DOES NOT HAVE THE SAME SPOUSE/PARTNER (A020=5)

PARTNERED_VOL: IF R IS NEWLY PARTNERED (A027=1) *or* HAS THE SAME SPOUSE/PARTNER (A020={1 *or* 3 *or* 4}) *or* IF R IS SEPARATED AND LIVING WITH A NEW PARTNER (A035=1)

REPARTNERED_VOL: IF R IS NEWLY PARTNERED (A027=1) *and* DOES NOT HAVE THE SAME SPOUSE/PARTNER (A020=5)

OTHER: IF R DID NOT REPORT THAT IS NEWLY {MARRIED *or* PARTNERED} ({A026 NOT 1} *and* {A027 NOT 1}) AND {A035 NOT 1}

A coupleness code assigned to variable X065 is an update of any previous codes. However, at X065 code 2 is folded into code 1 for a single married code, and code 4 is folded into code 3 for a single partnered code.

A coupleness code is also assigned for the second respondent based on the responses of the first respondent.

Note that in certain situations A038 and X065 could be assigned a different code than described in the general rules detailed above. Thus, even when the respondent has the same spouse/partner as at the last interview (A020={1 *or* 3 *or* 4} if she or he considers herself/himself separated (A034=2) the assignment takes the value of other (code 6) if r is not currently partnered (A035=5) or the value of partnered (code 3) if r is currently partnered (A035=1). This assignment based on the values of A034 and A035 overrides any other type of situation, including such changes where the respondent would have married his/her partner and then separated, or married since last interview.

A045: New Spouse/Partner Determination

The respondent was determined to have a new spouse or new partner (A045=1) if the respondent is:

- (a) REMARRIED (A026=1) *and* NOT SEPARATED (A034 NOT 2), *or*
- (b) REPARTNERED (A027=1) *and* LIVING TOGETHER (A030 NOT 5), *or*
- (c) SEPARATED BUT WITH NEW PARTNER (A035=1)

Otherwise, the respondent was determined not to have a new spouse/partner (A045=5)

X065 Child Coupleness Assignment Update

The following coupleness codes are reassigned to X065 for a child based on the respondent's response to X095:

(X065=1): MARRIED: IF CHILD WAS MARRIED AT HH's LAST IW (PreviousX065=1) AND IS STILL MARRIED TO THE SAME SPOUSE (X095={1 or 2})

(X065=3): PARTNERED_VOL: IF CHILD WAS LIVING WITH A PARTNER AT HH's LAST IW (PreviousX065=3) AND IS STILL LIVING WITH THE SAME PARTNER (X095={1 or 2})

Section 10: SCV.Xsplit: Marital/Mortality Determination Of Split Household - This section describes the scv variable xsplit. This variable is critical and controls whether or not the household is split into separate sub households.

A household can be split if it is decided that two respondents, previously interviewed as belonging to one household, no longer remain together as a couple. Then data are not shared between respondents. Interviews are conducted on each respondent independently and each of these can then acquire a new spouse/partner as a second respondent in that new household.

In the case where a respondent reported that the spouse/partner has died (A023=5), independent interviews are conducted for each: as an exit interview for the deceased respondent and as a core interview of the surviving spouse/partner (the household was split after A025). Where the first respondent was reported deceased (A007=5), the household was split after A007.

The following conditions determine whether the reinterview household is considered to be split.

Household is split (SCV.Xsplit=1):

IF R WAS COUPLED AT THE LAST WAVE (SCV.XNumR=2) and
{R DOES NOT HAVE THE SAME SPOUSE/PARTNER AS AT THE LAST WAVE (A020=5) or R IS SEPARATED (A034=2)} and R's SPOUSE/PARTNER IS STILL LIVING (A023=1));

or

IF R WAS COUPLED AT THE LAST WAVE (SCV.XNumR=2) and
ONE OR BOTH MEMBERS OF THE COUPLE HAS DIED (A007=5 or A023=5).

Household is not split (SCV.Xsplit=5):

OTHERWISE, IF R WAS ASKED A034 or A020 (A020={1 or 3 or 4})

Section 11: Imputed Variables - This section describes some of the key imputed variables that impact other sections. Imputed variables are variables that are calculated in the background during the interview. The values are calculated after section A2 is completed (A112 = 1).

A098_NumHHM- Calculates the total number of household members of any type, including children, where status is Resident, Away at an institution, or other type of Away resident

A099_NumResKid- Calculates the total number of *living resident children* where Resident, Away at an institution, or other type of Away status (including stepchildren and other type of children but NOT child-in-laws.)

A100_NumNRKids- Calculates the total number of *non-resident, living children* (including stepchildren and other type of children but NOT child-in-laws)

A101_TotalKids- Calculates the total number of *children (including deceased children)*, regardless of residency status (including stepchildren and other type of children but NOT child-in-laws)

A102_CntMoveInOut- Calculates the total number of people who moved in or out of Rs household this wave, including children and household members of any type. All new children, regardless of residency status, will also be calculated into A102.

A106_NumContactKids- Calculates the total number of *living children* (and not child-in-laws) where R did NOT report "no contact" at A226
