FINAL VERSION -- 05/11/2022

NOTE ABOUT BRANCHPOINTS:

WHERE THERE IS MORE THAN ONE JUMP WITHIN A BRANCHPOINT BOX, THE JUMPS ARE TO BE APPLIED IN ORDER FROM THE TOP.

NOTE ABOUT COLORS:

ALL TEXT IN TEAL IS SPECIFIC TO A WEB INTERVIEW.

THE CORE INTERVIEW IS DOCUMENTED USING BLACK TEXT, BUT BLACK TEXT CAN ALSO APPLY TO THE WEB INTERVIEW WHEN THERE ARE NO DIFFERENCES FROM THE CORE.

NOTE ABOUT BOLD/UNDERLINE TEXT:

ANY QUESTION THAT IS UNDERLINED IN THE B&A WILL APPEAR IN BOLD IN CAPI AND WILL BE UNDERLINED FOR CAWI.

NOTE ABOUT NON-RESPONSE FLOW:

ANY QUESTION THAT IS ASKED BUT LEFT WITHOUT A RESPONSE IN CAWI INTERVIEWS WILL FOLLOW THE SAME PATH AS A REFUSAL FOR THAT QUESTION, UNLESS OTHERWISE SPECIFIED.

ALTERNATE WAVE FLOW

Note: Alternate Wave questions are always asked of new interview Rs. They are asked of core reinterview Rs only in alternate waves. They were last asked of core reinterview Rs in 2018 and will be asked again in 2022.

P041 officially became an alternate wave field in 2016. Before that it was being commented in or out each wave. P195_altwave uses the same logic as E165_altwave but it is opposite on/off (when E165 is on P195 is off).

ALTERNATE WAVE VARIABLE IS NOT SET TO ASK QUESTIONS (AltWave Variable >0):

$P195 = ((\text{Init.A504_CurrWaveNdx} - 6) \text{ MOD } 2) > 0$

****IN 2022 ALTERNATE WAVE VARIABLE P195_ALTWAVE IS SET TO ASK QUESTION ****

Note: any respondent who refuses or does not know how to answer the first three "0-100" questions of section P, will not be asked any further questions in this section. The actual sequence of questions varies and depends on specific skips. The counter variables used to track responses are P155 (for number of questions asked) and P156 (for number of "don't know" or "refused" responses). P009 is the summary variable for this count and keeps track of whether or not the respondent's first three answers, whatever they may be, are all "don't know" or "refused". P009 takes the following values: 0 = could/would not answer probability questions; 1 = can answer probability questions.

Note: with the complete reprogramming in Blaise in 2002, questions were given their permanent field names. However, in subsequent waves certain question series were moved within section p, yet they retained their original field names. Furthermore, when a new question was added, it was given the next unused field name. The result is that, in section P in particular, the field names of many questions do not reflect their order within the section. At the end of the section, a table is provided to aid in locating questions cited in jumps.

P002

Next we would like to ask your opinion about how likely you think various events might be. When we ask a question we'd like for you to give us a number from 0 to 100, where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely sure to happen.

For example, no one can ever be sure about tomorrow's weather, but if you think that rain is very unlikely tomorrow, you might say that there is a 10 percent chance of rain. If you think there is a very good chance that it will rain tomorrow, you might say that there is an 80 percent chance of rain.
