

HRS 2020 -- SECTION P: EXPECTATIONS
COMMENTED VERSION -- 7/27/2020

***** NOTE FOR REVIEWERS *****

ALL CHANGES FOR THE 2020 WAVE INSTRUMENT ARE FLAGGED WITH
#@ LOCATED ON THE RIGHT SIDE OF THE CHANGED ITEM OR SERIES.
THUS, ALL CHANGES CAN BE LOCATED BY SEARCHING FOR #@ IN THE DESIGN CHANGE
COMMENTS COLUMN.

CHANGES IN ITEMS THAT WERE IN THE 2018 INSTRUMENT APPEAR IN RED.

NEW QUESTIONS AND ASSOCIATED NEW BRANCHPOINTS, ETC., APPEAR IN BLUE SANDWICHED
BETWEEN ROWS OF *****.

NOTE ABOUT BRANCHPOINTS:

WHERE THERE IS MORE THAN ONE JUMP WITHIN A BRANCHPOINT BOX, THE JUMPS ARE TO BE
APPLIED IN ORDER FROM THE TOP.

NOTE ABOUT COLORS:

ALL TEXT IN TEAL IS SPECIFIC TO A WEB INTERVIEW.

THE CORE INTERVIEW IS DOCUMENTED USING BLACK TEXT, BUT BLACK TEXT CAN ALSO APPLY TO
THE WEB INTERVIEW WHEN THERE ARE NO DIFFERENCES FROM THE CORE.

NOTE ABOUT BOLD/UNDERLINE TEXT:

ANY QUESTION THAT IS UNDERLINED IN THE B&A WILL APPEAR IN BOLD IN CAPI AND WILL BE UNDERLINED FOR CAWI.

NOTE ABOUT NON-RESPONSE FLOW:

ANY QUESTION THAT IS ASKED BUT LEFT WITHOUT A RESPONSE IN CAWI INTERVIEWS WILL FOLLOW THE SAME PATH AS A REFUSAL FOR THAT QUESTION, UNLESS OTHERWISE SPECIFIED.

MAJOR FLOW CONTROL: PRELOAD

This Is A **Reinterview R** (Z076=1);
This Is A **New Interview R** (Z076=5)

This is a **Financial R** (X007=1)
This is a **Family R** (X007=2)
This is a **Financial & Family R** (X007=3)
This is a **Non-Financial & Non-Family R** (X007=4)

MAJOR FLOW CONTROL: OTHER SECTION VARIABLES

This Is A **Self Interview** (A009=1);
This Is A **Proxy Interview** (A009={2 Or 3}) Or (A009 Not 1);
Proxy Reporter Is Surviving Spouse (A009=2);
Proxy Reporter is Non-Spouse (A009=3)

R'S **Age** (Per A019)

R is living in a **Nursing Home or Skilled-Nursing Facility** (A237=1)

R is living in a **Memory Care Center** (A237=2)

R is living in an **Assisted Living Facility** (A237=3)

R is living in a **Rehabilitation Center** (A237=4)

R is living in a **Retirement Community** (A237=5)

R is living in a **Senior Living Facility** (A237=6)

R is living in a **Rest Home** (A237=7)

R is living in a **Hospital** (A237=8)

R is living in a **Hospice** (A237=9)

R Is living in an **Other Type of Facility** (A237=10)

R Is **Working For Pay** (J020=1)

R Is **Not Currently Working** (J020=5)

R **Works For Someone Else** (J021=1)

R Is **Self Employed** (J021=2)

R **OWNS MAIN RESIDENCE** (H004=1, or H008=(1 or 2), or H011=1, or H014=(1 or 3))

R **Currently Receives Social Security Benefits** (J478=1)

R **Expects To Receive Social Security Benefits In The Future** (J479=1)

R **Currently Looking For A Job** ({J505 Or J517}=1)

EXTERNAL VARIABLES USED FOR FILLS

This R is **Male** (X060=1)

This R is **Female** (X060=2)

This R is **Married** (X065=1)

This R is **Living With a Partner** (X065=3)

This R is **UnCoupled** (X065=6)

X083 Random variable (Values 1 through 100) is used to generate fills variable P166.

X523_Random_1To8_New08_SecP (Values 1 through 8) is used to generate fills variable P168.

ALTERNATE WAVE FLOW

Note: Alternate Wave questions are always asked of new interview Rs. They are asked of core reinterview Rs only in alternate waves. They were last asked of core reinterview Rs in ~~2014~~2018 and will be asked again in ~~2018~~2022. #@ kt (5/16/19) Updated Alt Wave for 2020.

P041 officially became an alternate wave field in 2016. Before that it was being commented in or out each wave. P195_altwave uses the same logic as E165_altwave but it is opposite on/off. (when E165 is on P195 is off).

ALTERNATE WAVE VARIABLE IS NOT SET TO ASK QUESTIONS (AltWave Variable >0):

$P195 = ((Init.A504_CurrWaveNdx - 6) \text{ MOD } 2) > 0$

****IN ~~2018~~ 2020 ALTERNATE WAVE VARIABLE P195_ALTWAVE IS NOT SET TO ASK QUESTION ****

Note: any respondent who refuses or does not know how to answer the first three “0-100” questions of section P, will not be asked any further questions in this section. The actual sequence of questions varies and depends on specific skips. The counter variables used to track responses are P155 (for number of questions asked) and P156 (for number of “don’t know” or “refused” responses). P009 is the summary variable for this count and keeps track of whether or not the respondent’s first three answers, whatever they may be, are all “don’t know” or “refused”. P009 takes the following values: 0 = could/would not answer probability questions; 1 = can answer probability questions.

Note: with the complete reprogramming in Blaise in 2002, questions were given their permanent field names. However, in subsequent waves certain question series were moved within section p, yet they retained their original field names. Furthermore, when a new question was added, it was given the next unused field name. The result is that, in section P in particular, the field names of many questions do not reflect their order within the section. At the end of the section, a table is provided to aid in locating questions cited in jumps.

P002 BRANCHPOINT: IF THIS IS AN EXIT INTERVIEW, GO TO SECTION T

IF THIS IS A PROXY INTERVIEW (A009={2 or 3}), GO TO SECTION Q

P002

Next we would like to ask your opinion about how likely you think various events might be. When we ask a question we'd like for you to give us a number from 0 to 100, where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely sure to happen.

For example, no one can ever be sure about tomorrow's weather, but if you think that rain is very unlikely tomorrow, you might say that there is a 10 percent chance of rain. If you think there is a very good chance that it will rain tomorrow, you might say that there is an 80 percent chance of rain.

1. CONTINUE

Next we would like to ask your opinion about how likely you think various events might be. When we ask a question we'd like for you to give us a number from 0 to 100, where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely sure to happen.

For example, no one can ever be sure about tomorrow's weather, but if you think that rain is very unlikely tomorrow, you might say that there is a 10 percent chance of rain. If you think there is a very good chance that it will rain tomorrow, you might say that there is an 80 percent chance of rain.

[INSTR: SELECT "NEXT" TO CONTINUE.]

P166 BRANCHPOINT: IF THIS IS A FINANCIAL R (X007={1 or 3}), and R OWNS MAIN RESIDENCE ({H004 or H011}=1 or {H008={1 or 2}} or {H014={1 or 3}}), CONTINUE ON TO P166

OTHERWISE, GO TO P005

We are interested in how the value of your home will change in the future.

On the same scale from 0 to 100 what do you think is the percent chance that by next year at this time your home will be worth [more/less (per P196)] than it is today?

Absolutely
No chance 0.....100 Certain Absolutely

PERCENT _____

DK

RF

We are interested in how the value of your home will change in the future.

On the same scale from 0 to 100 what do you think is the percent chance that by next year at this time your home will be worth [more/less (per P196)] than it is today?

Absolutely
No chance 0.....100 Certain Absolutely

[INSTR: ENTER ANY NUMBER FROM 0 TO 100.]

NUMBER _____

Note: A preloaded random variable (X083) with values from '0' to '100' is used to generate the fill for question P166. The P196 fill is created using a mod function which returns a '0' or '1'. A '0' is returned if there is no remainder and a '1' if there is a remainder. if there is a remainder then the P196 fill is assigned 'more', if not P196 fill is assigned 'less'. The (temporary) FLP166 fill was changed to a (permanent) P196 variable so the fill value can later be used as data.

P168

By this time next year, what is the percent chance that the value of your home will have [gained/fallen] (per 170) in value by more than [10/20/30/40] percent compared to what it is worth today?

Absolutely Absolutely
No chance 0.....100 Certain

PERCENT _____

DK

RF

By this time next year, what is the percent chance that the value of your home will have [gained/fallen] (per 170) in value by more than [10/20/30/40] percent compared to what it is worth today?

Absolutely Absolutely
No chance 0.....100 Certain

[INSTR: ENTER ANY NUMBER FROM 0 TO 100.]

NUMBER _____

NOTE: The first fill of variable P168 is 1 = fallen or 2 = gained and is recorded at P170. The P170 fill is based on the response at P166, if P166 = 0% or 100%.

If (P166 is 0% and the P196 (P166 fill) is 'more') or (P166 is 100% and P196 is 'less') then P170 is assigned 1. fallen.

If (P166 is 100% and the P196 is 'more') or (P166 is 0% and P196 is 'less') then P170 is assigned 2. gained.

If P166 is not 0% or 100% then the P170 fill is based on the the preloaded value of the random variable X523. If X523=1, 2, 3, or 4 then the P170 fill is assigned 1. fallen.

If X523=5, 6, 7, or 8 then the P170 fill is assigned 2. gained.

The second fill in P168 is always based on the preload value of X523 and the fill takes the value of 10%, 20%,30%, or 40%. So if:

X523 = 1 , then the second fill will be 40%,

X523 = 2, then the second fill will be 30%,

X523 = 3 , then the second fill will be 20%,

X523 = 4 , then the second fill will be 10%,

X523 = 5 , then the second fill will be 10%,

X523 = 6 , then the second fill will be 20%,

X523 = 7, then the second fill will be 30%,

X523 = 8 , then the second fill will be 40%,

Thinking about an inheritance you [and your [husband/wife/partner]] might leave [, but not including any inheritance you might leave to each other].
