* A variable fieldname and code reference is shown at its first occurrence
in the questionnaire, but in some cases, especially when it is common,
is not shown after that.

NOTE: ANY R WHO REFUSES OR DOES NOT KNOW HOW TO ANSWER THE FIRST THREE 0-100 QUESTIONS OF SECTION P, WILL NOT BE ASKED ANY FURTHER QUESTIONS IN THIS SECTION. THE ACTUAL SEQUENCE OF QUESTIONS VARIES AND DEPENDS ON SPECIFIC SKIPS. THE COUNTER VARIABLES USED TO TRACK RESPONSES ARE P155 (FOR NUMBER OF QUESTIONS ASKED) AND P156 (FOR NUMBER OF "DON'T KNOW" OR "REFUSED" RESPONSES). P009 IS THE SUMMARY VARIABLE FOR THIS COUNT AND KEEPS TRACK OF WHETHER OR NOT THE REPONDENT'S FIRST THREE ANSWERS, WHATEVER THEY MAY BE, ARE ALL "DON'T KNOW" OR "REFUSED". P009 TAKES THE FOLLOWING VALUES: 0 = COULD/WOULD NOT ANSWER PROBABILITY QUESTIONS; 1 = CAN ANSWER PROBABILITY QUESTIONS.

NOTE: WITH THE COMPLETE REPROGRAMMING IN BLAISE IN 2002, QUESTIONS WERE GIVEN THEIR PERMANENT FIELD NAMES. HOWEVER, IN SUBSEQUENT WAVES CERTAIN QUESTION SERIES WERE MOVED WITHIN SECTION P, YET THEY RETAINED THEIR ORIGINAL FIELD NAMES. FURTHERMORE, WHEN A NEW QUESTION WAS ADDED, IT WAS GIVEN THE NEXT **UNUSED** FIELD NAME. THE RESULT IS THAT, IN SECTION P IN PARTICULAR, THE FIELD NAMES OF MANY QUESTIONS DO NOT REFLECT THEIR ORDER WITHIN THE SECTION. THUS, THIS TABLE IS PROVIDED TO AID IN LOCATING QUESTIONS CITED IN JUMPS. FIELD NAMES THAT ARE OUT OF NUMERICAL SEQUENCE ARE SHOWN GRAYED.

NOTE: RANDOM VARIABLES USED IN SECTION P:

X502 (VALUES 1 AND 2) IS USED FOR ASSIGNING RESPONDENTS TO ONE OF TWO MUTUALLY EXCLUSIVE FOLLOW-UP QUESTIONS ABOUT FUTURE HEALTH AT P108 BRANCHPOINT.

X506 (VALUES 1 AND 2), X507 (VALUES 1 AND 2), X508 (VALUES 1 AND 2) AND X511 (VALUES 1, 2 AND 3) ARE USED FOR ASSIGNING RANDOMIZED FILLS AT QUESTION P109.

X510 (VALUES 1 AND 2) IS USED FOR ASSIGNING RESPONDENTS TO EPISTEMIC OR APPROXIMATION FOLLOW-UP SEQUENCES AT P102 AND P157 BRANCHPOINTS.

X523 (VALUES 1 THROUGH 8) IS USED TO GENERATE FILLS FOR VARIABLE P150.

P002 BRANCHPOINT: IF THIS IS A PROXY INTERVIEW (A009={2 or 3}), GO TO SECTION Q

P002

Next we would like to ask your opinion about how likely you think various events might be. When I ask a question I'd like for you to give me a number from 0 to 100, where "0" means that you think there is absolutely no chance, and "100" means that you think the event is absolutely sure to happen.

For example, no one can ever be sure about tomorrow's weather, but if you think that rain is very unlikely tomorrow, you might say that there is a 10 percent chance of rain. If you think there is a very good chance that it will rain tomorrow, you might say that there is an 80 percent chance of rain.

P112

We just asked you about changes to Social Security in general. Now we would like to know whether you think these Social Security changes might affect your own benefits.

On a scale from 0 to 100, what do you think is the percent chance that over the next 10 years there will be changes to Social Security that will reduce your future benefits compared to what you would get under the current system?

P047

We are interested in how well you think the economy will do in the future.

By next year at this time, what is the percent chance that mutual fund shares invested in blue chip stocks like those in the Dow Jones Industrial Average will be worth more than they are today?

P113 BRANCHPOINT: IF R SAID 0 PERCENT CHANCE THAT MUTUAL FUND WILL BE WORTH MORE (P047 = 0), GO TO P145

IF R SAID 100 PERCENT CHANCE THAT MUTUAL FUND WILL BE WORTH MORE (P047 = 100), GO TO P147

IF R DID NOT SAY IS 50 PERCENT CHANCE THAT MUTUAL FUND WILL BE WORTH MORE (P047 NOT 50), GO TO P149 BRANCHPOINT

P113

Do you think that it is about equally likely that these mutual fund shares will increase in worth as it is that they will decrease in worth by this time next year, or are you just unsure about the chances?

1. EQUALLY LIKELY	2. UNSURE	8. DK	9. RF
GO TO P149 BRANCHPOINT			

P145

(When people are asked to give a numerical response, like percent chance, sometimes they give exact answers and sometimes they give rounded or approximate numbers.)

When you say zero percent chance, do you mean that you see no chance at all mutual fund shares will be worth more next year than this year, or do you mean you see a small enough chance that zero is a good approximation?

1. NO CHANCE AT ALL	3. APPROXIMATION	8. DK	9. RF
GO TO P149 BRANCHPOINT		GO TO P149 BRANCHPOINT	

P146

(If you think there is a small chance that mutual fund shares will be worth more,) please give your best estimate of what that chance is.

	DK	RF	
PERCENT			

P147 BRANCHPOINT: GO TO P149 BRANCHPOINT

P147

(When people are asked to give a numerical response, like percent chance, sometimes they give exact answers and sometimes they give rounded or approximate numbers.)

When you say 100 percent chance, do you mean that you are certain that mutual fund shares will be worth more next year than this year, or do you mean you see a large enough chance that 100 is a good approximation?

1. CERTAIN	3. APPROXIMATION	8. DK	9. RF
GO TO P149 BRANCHPOINT		GO TO P149 BRANCHPOINT	

P148

(If you think there is a large chance that mutual fund shares will be worth more,) please give your best estimate of what that chance is.

	DK	RF
PERCENT		

P149: EPISTEMIC RESPONSE ASSIGNMENT

A RESPONDENT IS ASSIGNED AN EPISTEMIC RESPONSE CODE AT P149 BASED ON RESPONSES TO QUESTIONS P047, P113

1. EPISTEMIC RESPONSE
2. NON-EPISTEMIC RESPONSE

EPISTEMIC RESPONSE: IF R ANSWERED {"DK" or "RF" AT P047 (P047 = {DK or RF}) or ANSWERED "UNSURE" AT P113 (P113= 2), THEN CODE 1 "EPISTEMIC RESPONSE" IS ASSIGNED TO P149.

P150 BRANCHPOINT: IF R PROVIDED AN EPISTEMIC RESPONSE (P149 = 1), GO TO P116

RANDOMIZED FILL VALUES FOR P150:

NOTE: THE RANDOM VARIABLE X523 IS USED TO GENERATE FILLS FOR VARIABLE P150;

NONETHELESS, IF A RESPONDENT SAID "NO CHANCE AT ALL" "MUTUAL FUNDS WILL GO UP" (P145=1) THEN THE FIRST FILL IS "FALLEN" REGARDLESS OF THE VALUE OF X523. SIMILARLY, IF A RESPONDENT SAID "CERTAIN" "MUTUAL FUNDS WILL GO UP" (P147=1) THEN THE FIRST FILL IS "GAINED" REGARDLESS OF THE VALUE OF X523.

THE VARIABLES P162 AND P163 PROVIDE AN IN-SECTION REFERENCE AS TO WHICH FILLS WERE USED AT VARIABLE P150. P162 TAKES THE VALUES: 1=GAINED and 2=FALLEN. P163 TAKES THE VALUES: 10, 20, 30, 40 (Percent);

P162	First Fill Value	Second Fill Value [P163]
1	fallen	40
1	fallen	30
1	fallen	20
1	fallen	10
2	gained	10
2	gained	20
2	gained	30
2	gained	40

P150

By next year at this time, what is the percent chance that mutual fund shares invested in blue-chip stocks like those in the Dow Jones Industrial Average will **have [gained/fallen] in value by more than [P163] percent compared to what they are worth today?**

00	10	20	30	40	50	60	70	80	90	100	DK
ABSOLUTELY NO CHANCE ABSOLUTELY CERTAIN											RF

P116

Over the next 10 years what are the chances the cost of living will increase by 5 percent or more per year on average?

00	10	20	30	40	50	60	70	80	90	100	DK
ABSOLUTELY NO CHANCE ABSOLUTELY CERTAIN											RF

P097 (Tag#=P047.5)

How closely do you follow the stock market: very closely, somewhat, or not at all?

1. VERY CLOSELY	2. SOMEWHAT CLOSELY	3. NOT AT ALL	98. DK	99. RF
